THE PROOF

Why 360° Works

Google commissioned an independent study of the effectiveness of virtual tours. It found that virtual tours help double interest in business.

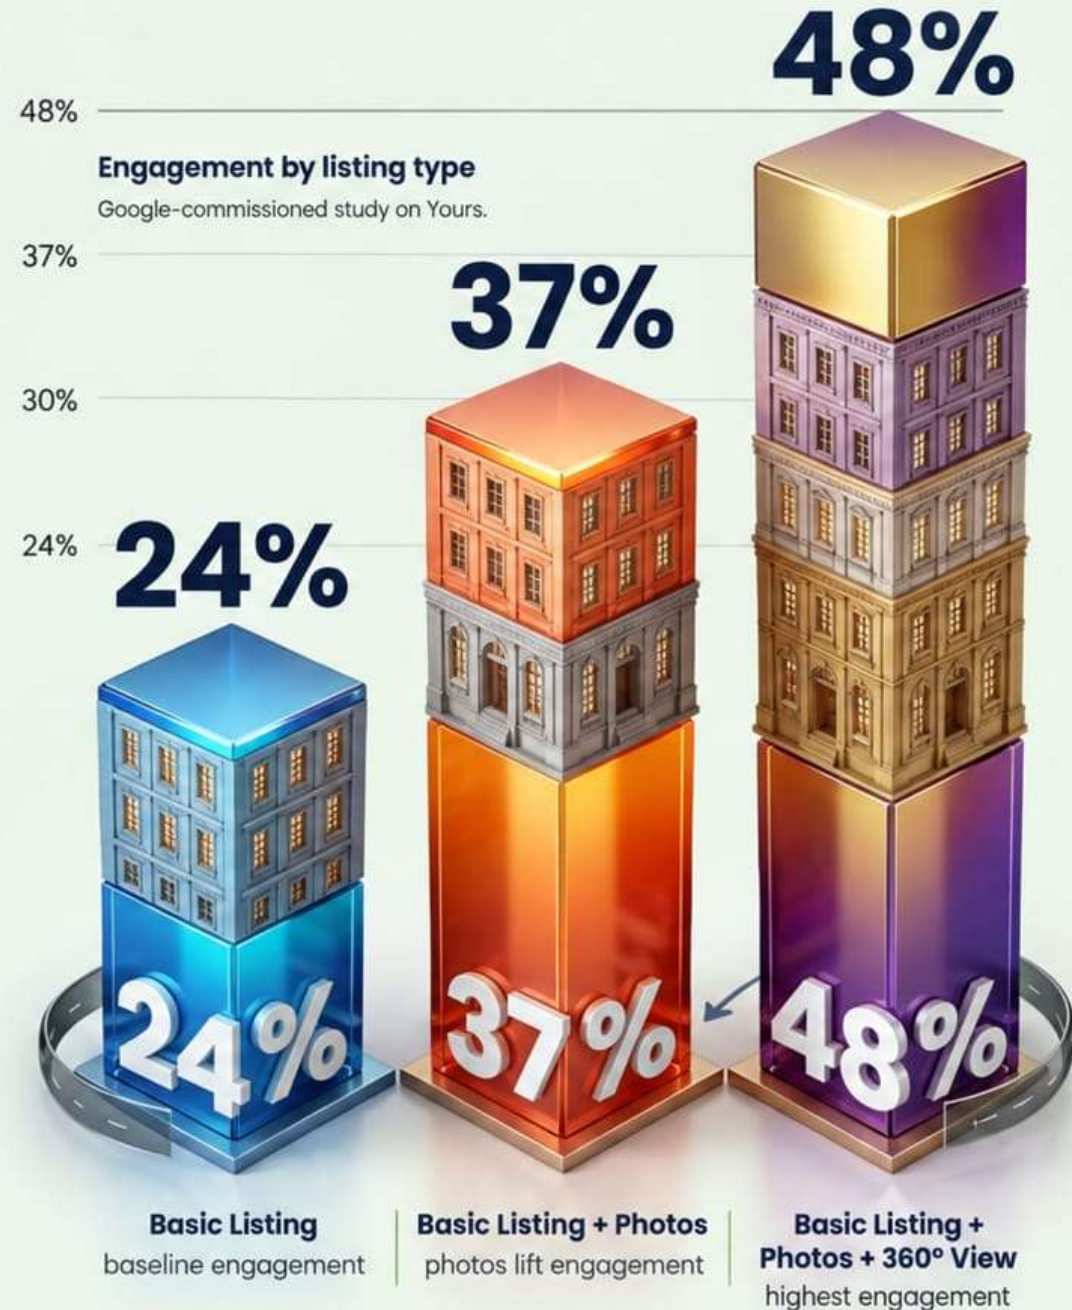

Listings that add a 360° view to basic details and photos earn the highest engagement, rising from 24% (basic listing) to 37% (with photos) and 48% (with photos and 360° view).

- ✓ Stand out from competitors on Google Maps and Search
- ✓ Build trust before customers ever walk in
- ✓ Turn browsers into walk-in customers
